## FUTURES TRADING SETTING (BINANCE)

### Reminder:

This guide will show newcomers on how to setup futures trading in Binance. Before you begin, please make sure you have applied for and successfully passed the Binance account verification, and then ensure that the Futures API is tied to the Whale Bot app. If you haven't done so yet, please refer to the other related tutorials in the toolbox, Cheers

# FUTURES TRADING SETTING (BINANCE)

First, you must open a Binance account and click "Futures", then click "Buy/Long".

## Adjust Position Mode

### One-way Mode

In One-way Mode, a symbol only supports holding a position in one direction.

### Hedge Mode

In Hedge Mode, a symbol supports simultaneously holding long position and short position, and unrealized PNL can be offset between two positions of the symbol.

Position mode cannot be adjusted with open positions or open orders in USD<sup>Ⓢ</sup>-M Futures. Position mode adjustments are effective for all symbols. This setting only applies to USD<sup>Ⓢ</sup>-M Futures.
